

MOLA Mentorship Program

Mentee application: Instructions for Applicants

Description of “Mentee”:

As a MOLA mentee, you will have the opportunity to participate in didactic and hands on educational sessions as well as have the opportunity to be paired with an individual mentor or mentorship team. You will also have access to shadowing, research and volunteer opportunities in the health professions.

Requirements for Mentees:

To be eligible for the Mentee program, you should meet the following criteria:

- Interest in pursuing medical or health career.
- Many mentees are enrolled in high school, technical, undergraduate, graduate (including medical) school, or residency, or are International Medical Graduates, but current enrollment is not required. Mentorship applications will be reviewed on an individual basis by the Mentorship Committee.

To remain a mentee in good standing you must:

- attend two mentorship events per academic year, and
- meet in person or virtually (phone, video chat, etc...) with your assigned mentor once every six months.
- complete quarterly program evaluations via email.

Mentees in good standing are eligible to receive a letter of recommendation for college or medical school written by MOLA Mentor Physicians or Health Professionals.

To apply to become a mentee in the MOLA Mentorship program, please click:

What happens after I apply?

You can expect to hear from us about 1 week after you submit your application.

What is the selection process like and what do I do if I am not selected?

Though there are limited spaces available for “mentees,” applications are accepted on a rolling basis throughout the year until filled to capacity. Interested candidates who are not selected for mentee program in the current cycle are still encouraged to attend our monthly educational sessions and reapply next year! You are also strongly encouraged to become a MOLA member (free for all students) and volunteer.

Special note regarding Medical Students and Residents:

Medical students and residents are welcome to apply to be a mentee, but please also apply for your free MOLA membership and consider becoming a mentor as well.

As a medical student or a resident, you have already reached and succeeded in many important milestones to reaching your dream. As such, we want to help you get all the way to the top, and also want to recruit your talents and experience to reach those who are just one or two steps behind you. You have a lot to offer as a MOLA mentor and hope you will consider that role as well as part of a mentorship team.

Please email education@chicagomola.com with any questions.
